

Number Gym

Skyswood subscribes annually to Number Gym and we work closely with the co-founder, Mel Rust. The Bondbuilder and Table Trainer resources are excellent for early number work and support the learning of times tables.

The 'dots' exercises support basic skills of counting. Simply drag the dot image to the correct number. If you make an error it will bounce back and give you another go!

For table trainer you can select whichever times table you want, then choose from three options; ordered, mixed, or division (which gives the inverse operation.)

Children can set their own targets, aiming for 'quick thinking' or 'lightning fast.' There are also 'mixed' tables challenges!

This is just one of many excellent resources that can be found on the Number Gym, have fun exploring the site with your children.

www.mymaths.co.uk/

Following our consultation of parents in the summer term 2013 (through our Annual Parent Questionnaires) it was decided, with the approval of our governors, to replace the Maths Card Scheme in KS2. In its place we will be implementing a simpler focus on times tables alongside weekly home learning tasks in Maths. These tasks will be specifically linked to the current areas of learning within the classroom.

Some of the home learning tasks that we set will relate to the mymaths.co.uk website. Each child will be given a personal three-digit log in for easy access at home.

These tasks will be completed on-line and self-assessed. Teachers will have access to a Management Tool that provides an overview of how long each child has spent on their home learning tasks, which questions were answered successfully, and which questions were self-corrected. Home learning will be followed up in school, with teachers focusing on the key areas that need to be expanded upon or addressed.

This is a trial period for mymaths.co.uk resources and we very much value the children's feedback, and of course any parental feedback.
